This site was created for the purpose of collaborating on our Family Tree and to share our lives with one another. Within this site you will find many useful resources including the [family tree](#), [photo album](#) and [forum](#).

Registering

If you would like full access to the family tree, including being able to edit and add, you must first register. Upon registering please state your reason for registration and how you are related so that I can set you up with the proper permissions.

Family Tree

The family tree section allows the entire family to collaborate on the research of our ancestors and their descendants. The surnames of interest are Craig, Ennis, Salchenberger, Solchenberger, Zantow et. al. The family tree is open to everyone. However, in order to preserve the living's privacy unregistered users will not have full access to certain information.
